PROFESSIONAL PROFILE

Experienced operations and administration professional with over 15 years of experience supporting multi-site operations, personnel coordination, compliance management, fleet administration, procurement processes, reporting systems, and document control in demanding operational environments.

Strong background managing administrative systems, personnel records, onboarding processes, asset tracking, operational reporting, supplier coordination, and audit-ready documentation. Highly proficient in Microsoft Office, advanced Excel systems, database management, and maintaining accurate records across multiple locations simultaneously.

Recognised for attention to detail, strong organisational skills, reliability, and the ability to manage competing priorities while ensuring compliance requirements are consistently met.
